

SHIVANSH P VERMA

Freelancer | Full-Stack Engineer | AI Systems Builder | Cross-Platform Developer
shivansh1411@gmail.com | +91 9623688451 | Nagpur, MH | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Developer focused on building practical, reliable systems that work beyond the basics. Enjoys understanding how things work end-to-end and solving problems through clean, scalable solutions. Brings consistency, curiosity, and a hands-on approach to building and improving products. Values clarity, efficiency, and building things that hold up in real use.

EDUCATION

G.H. Rasoni College of Engineering, Nagpur

B.Tech. Computer Science & Engineering

CGPA: 8.95 / 10 | 2023 – 2027

EXPERIENCE

Gigzs — AI-Powered Gig Marketplace

Project Manager & Full-Stack Developer

Pune, Hybrid

Sept 2024 – Present

- Led delivery of an AI gig marketplace with a 6-person cross-functional team, reaching 500+ users before strategic pivot
- Owned full-stack development across Next.js, Supabase, and Node.js, covering frontend UX, backend APIs, and Azure VM deployment
- Defined product roadmap and sprint goals as the sole communication bridge between founders, developers, and designers

Freelancer — Independent Client Projects

Full-Stack & Cross-Platform Development

Remote

2024 – 2025

- Delivered 5+ client projects across web, mobile, and cross-platform development, two flagship productions detailed below
- Built a live cross-platform founder networking app for Android, iOS, and Web using Capacitor, Android Studio, and Xcode
- Role-based feeds connecting startup founders, investors, and domain experts, currently live in production
- Developed a large-scale MLS listings platform for a US real estate client with Airbnb-style UI, search, and filtering

PROJECTS

Supermemory (GML) — Cross-Model Long-Term AI Memory Layer

Pinecone · ChromaDB · Azure VM · Full Stack

Late 2025

- Built a persistent memory layer enabling AI assistants like Claude and GPT to retain user context across sessions
- Eliminates conversation fragmentation by linking past interactions to live queries in real time
- Designed semantic embedding pipeline using Pinecone and ChromaDB, improving response relevance by ~35%
- Managed vector indexing, similarity thresholds, and retrieval latency optimization on Azure VM

Drishti Cap — AI Wearable for Visually Impaired

Python · YOLOv8 · TensorFlow · Raspberry Pi · OpenCV · TTS

Dec 2025 – Mar 2026

- Wearable camera-cap on Raspberry Pi delivering real-time object detection, facial recognition, and obstacle identification
- Converts all detections to audio feedback instantly, enabling independent navigation without any cloud dependency
- Optimized YOLOv8 and TensorFlow models for edge inference under strict hardware constraints
- Validated end-to-end system and passed thesis evaluation

ArqivAI — Multi-Model AI Research Assistant

FastAPI · LLM Orchestration · Fine-tuning · REST APIs

Mid 2024

- Routes queries to multiple LLMs in parallel and cross-validates all outputs into one high-confidence answer
- Achieved ~40% fewer hallucinations compared to single-model baseline using confidence scoring and source tracking
- FastAPI backend integrating 4+ LLM providers with a unified interface and fine-tuned domain adapters

TECHNICAL SKILLS

Languages: JavaScript, Java, C++, SQL

Frontend / Backend: Next.js, React, Node.js, Express.js, REST APIs, HTML/CSS

Mobile: Android Studio, Xcode, Capacitor (Cross-Platform)

AI / ML: YOLOv8, TensorFlow, LLM Orchestration, RAG Pipelines, Vector Embeddings, Fine-tuning, OpenCV

Databases: Supabase, MongoDB, MySQL, Firebase, Pinecone, ChromaDB, TiDB

Infrastructure: Azure VM, Nginx, Git, GitHub, Raspberry Pi

Familiar with: Python, PHP, FastAPI, Bootstrap, Docker, Kubernetes

CERTIFICATIONS

Deep Learning Fundamentals — NVIDIA Deep Learning Institute

Neural Networks & AI

Salesforce AI Associate — Salesforce Trailhead	AI & CRM
TiDB Practitioner — PingCAP	Distributed SQL
Java Programming Masterclass — Udemy — Tim Buchalka	Java SE 17

LEADERSHIP & EXTRACURRICULARS

Interstella — NASA Space Apps Challenge Technical Team Lead	Aug 2023 — 2025
A Better Hand Member — Environment NGO	2021 — 2024
Phoenix Forum Technical Lead	July 2024 — July 2025
IEEE Student Branch GHRCE Secretary	Aug 2023 — Sept 2025
House of Hearts (HOH) Content Lead	July 2023 — July 2024
